

19-Asset Content Production Addendum

Full SEO, AEO, and GEO review package | August 28, 2026

Bottom line

All 19 owned URL assets now have complete local review drafts. The release includes WordPress-ready HTML fragments, candidate schema graphs, reciprocal internal-link specifications, metadata, image direction, source notes, and automated QA. Nothing has been sent, staged, published, or represented as live performance.

Keyword decisions	Assigned	Rejected	Owned assets	QA state
62	58	4	19	PASS

Scope truth

- The original approved pilot remains 35 hours at \$30 per hour, \$1,050 total.
- The original pilot included HUB-01, ART-01, and ART-02 as complete URL drafts.
- The other 16 complete drafts are a Dillon-authorized local production extension. They do not change the original commercial record or imply a new client fee.
- Factual review, public-use permission, leadership approval, imagery, staging, exact-revision approval, and live verification remain gates.

Complete 19-asset register

Implementation-ready package

- Complete Markdown copy for all 19 owners, with metadata and one distinct reader job per URL.
- Direct-answer openings, extractable structures, authoritative sources, planned internal links, FAQs, and schema candidates.
- Featured-image briefs, alt-text candidates, and image placement notes.
- WordPress-ready HTML, per-URL schema files, publication manifest, internal-link map, and automated QA.
- AEO, GEO, SEO, WordPress staging, publication, and live-verification standards.

Human gates still open

- Janice factual and public-use review for interview-derived language.
- Leadership approval of audience, claims, offers, visuals, CTA destinations, owners, and qualified-lead definition.
- A distinct consulting offer before CONSULT-01 can become a public service page.
- Exact WordPress staging and rollback owners, followed by complete staged QA.
- Explicit publication approval for the exact staged revision and separate live readback.

No outcome claim

This local production package does not guarantee or claim rankings, traffic, leads, revenue, featured snippets, rich results, AI citations, answer-engine inclusion, publication, or live performance.
