Replenish scope

August signal

Replenish generated 705 clicks from 38,690 impressions while maintaining an average cost below one dollar per click.

Conversion reporting is pending validation. Click to get directions remains a separate site reporting KPI.

Industry efficiency

53% lower

August average CPC than the 2026 Restaurants and Food search benchmark of \$2.05.

Store campaign leaders

The five highest spend campaigns represented \$474.23 of August media delivery.

Torrey Del Mar		\$127.25	176 clicks	2.37% CTR
Carmel Mountain		\$110.78	99 clicks	2.81% CTR
Coral Springs		\$85.72	26 clicks	0.46% CTR
Boca		\$82.68	51 clicks	1.40% CTR
Pompano		\$67.80	95 clicks	2.11% CTR

Carmel Mountain led click through rate at 2.81%. Torrey Del Mar led both spend and click volume.

What we completed in August

Campaign delivery, reporting, and measurement work completed for Replenish.

Delivered

- Completed the August top line campaign read across nine store campaigns.
- Delivered two weekly performance packets and preserved the location level view.
- Reconciled billing, account access, and campaign readiness follow ups.
- Kept Replenish reporting and media evidence separate from Fresh Blends.

Measurement boundary

The campaign KPIs are complete. Click to get directions remains in the existing site reporting layer and will be added separately before the client presentation.

TOP LINE CAMPAIGN KPIS

Complete

DIRECTIONS KPI

Pending

September action plan

Complete the measurement layer first, then review store level optimization opportunities.

1	Complete directions KPI	DILLON	Add the August click to get directions read from the site reporting layer.	Before presentation
2	Review top line KPIs	RUBEN AND MOMENTUM	Review campaign delivery by location and surface questions for Mia.	Early September
3	Prioritize store review	PAID MEDIA	Focus creative and targeting review on lower engagement locations.	After KPI review

Final scope: one Replenish PowerPoint. Fresh Blends is not part of the August presentation.

Efficient traffic delivery. Clear ownership for the final KPI.

The top line campaign view is complete. Adding the site based directions KPI will finish the client presentation without blending brands or unsupported outcomes.
