What we completed in August

AUGUST
RECAP

- Delivered the August plan and carried the fifteen-item implementation queue into review.
- Advanced therapist footage into editing and prepared the first video for client approval.
- Completed the active review-cleanup pass and kept the remaining Rhode Island flags visible for verification.
- Delivered the competitive search-visibility audit and continued the Google Business Profile posting rhythm.

Primary goal

SEPTEMBER PLAN

Approve the first therapist video, resolve the remaining review flags, and release the first five implementation priorities with clear measurement ownership.

Next planning period

September 2026

EXECUTIVE ANALYSIS

August connected the earlier strategy to a practical content and implementation queue. The work is now concentrated around video approval, local trust signals, and the first five site priorities.

No paid-media performance is claimed. Search, booking, and inquiry outcomes remain pending until the approved actions and measurement routes are live.

Channel performance

August activity and results by channel.

Brand and content

Active review

The therapist video system and established visual library are moving through the review and production sequence.

August summary: August review and content work advanced; the first therapist video and implementation priorities remain in review.

August results and work completed

Platform activity is separated from qualified business outcomes.

Lead accounting: Platform activity is reported separately from qualified inquiries, appointments, estimates, bookings, and revenue. Conversion reporting remains pending validation wherever the exact action definition, attribution window, or downstream outcome is not fully reconciled.

Media results

No fresh paid-media result is claimed. August evidence covers content, local trust, visibility planning, and implementation readiness.

Business results

Video approval, booking ownership, and measurable inquiry outcomes remain open.

August reporting focus

Approve the first content and site actions, then track profile engagement, site inquiries, booking actions, and completed appointments.
