NKCDC Phase Two Growth Proposal

A coordinated system for programs, participation, partnerships, and community reach

A proposed Phase Two contract and growth partnership across NKCDC's Economic Development work.

From one campaign to an organization-wide growth system

WHAT PHASE ONE SHOWED

- ◆ A focused tax-preparation program generated real attention and inquiries for NKCDC.
- ◆ A single well-promoted program can earn measurable community response.
- ◆ The constraint was scope: one program, one season, one audience.

THE PHASE TWO OPPORTUNITY

- ◆ Expand the relationship into a repeatable growth engine across NKCDC's Economic Development work.
- ◆ Combine content, nonprofit search advertising, social media, direct outreach, workshops, and emerging ad placements.
- ◆ Point every channel at program participation and qualified community action.

THE REPEATABLE LOOP

Each program NKCDC prioritizes moves through the same loop, so every campaign strengthens the next one.

Six services, one connected growth system

Every channel exists to drive program participation and qualified community action — not activity for its own sake.

Program participation and qualified community action — the outcome every service is accountable to

All fees are proposed monthly terms — detailed on the investment summary.

SEO/GEO website content

A steady editorial engine that makes NKCDC programs easy to find in search and AI assistants.

\$400/month

- ◆ Two high-quality website pages per month, written for people first.
- ◆ Optimized for on-page SEO, content quality, and AEO (answer-engine optimization).
- ◆ Each page supports a program, service, or community question NKCDC wants to own.

SCOPE NOTE

Google Business Profile and local listing management are excluded from this service line.

Google Ad Grants

Grant-funded nonprofit search advertising that puts NKCDC programs in front of people already looking.

\$250/month

No client ad spend for grant-funded media

- ◆ **Full setup:** nonprofit ads account creation and grant application support.
- ◆ **Verification,** campaign management, and ongoing optimization.
- ◆ **Monthly reporting** on what searchers saw, clicked, and did next.

REQUIRED CONDITIONS

Google Ad Grants requires nonprofit eligibility, verification, and Google approval. Grant media carries no client ad spend once the account is approved and active.

NKCDC Community Programs — Kensington

GRANT SETUP TO REPORTING

Approved grant accounts fund the media itself; the monthly fee covers management, optimization, and reporting.

ILLUSTRATIVE EXAMPLE

Social media marketing

One expert session becomes a month of branded, useful short-form content for the community.

\$450/month

- ◆ One content session with a tax expert, edited into weekly tax-tip content.
- ◆ One static post and one video post every week, branded and captioned.
- ◆ Distributed on Instagram, TikTok, and YouTube Shorts to meet the community where it scrolls.

MONTHLY RHYTHM

Film once, publish weekly: a repeatable cadence of practical tips that builds trust and steady reach between program launches.

Cold email outreach

Responsible, targeted outreach that starts real conversations with local businesses and partners.

\$400/month

+ \$100/month Apollo software fee

- ◆ **Apollo plus AI-assisted local targeting** to build accurate, relevant lists.
- ◆ **Audiences:** local businesses and potential partners for NKCDC programs.
- ◆ **Quality over volume:** personalized messages, careful list hygiene, and prompt handoff of real replies.

HOW IT'S RUN

Outreach is partner development, not spam: small, well-researched audiences, honest messaging, and every warm reply routed to NKCDC.

REPLY → HANDED TO NKCDC

"Thanks for reaching out — we'd like to hear more. Could we set up a call next week?"

ILLUSTRATIVE EXAMPLE

Workshop & webinar production

A monthly live event that turns NKCDC expertise into registrations, attendance, and follow-up.

\$400/month

+ ad spend (pass-through)

- ◆ **One webinar produced and promoted every month**, end to end.
- ◆ **Promotion channels can include** Meta Ads, Eventbrite, Facebook Events, email, partners, and related channels.
- ◆ **Every event feeds the loop:** registrant follow-up connects attendees to the next NKCDC program.

COST STRUCTURE

The monthly fee covers production and promotion management. Paid promotion budget is a separate, agreed pass-through ad spend.

ChatGPT Ads

An early, carefully managed presence in emerging AI-assistant ad placements.

\$150/month

+ ad spend (pass-through)

- ◆ **Setup, verification, management, and reporting** for ChatGPT ad placements.
- ◆ **Positions NKCDC early** in a channel where community questions are increasingly asked.
- ◆ **Managed conservatively:** budget only flows when placements are available and approved.

PLATFORM-DEPENDENT

Availability, eligibility, inventory, and approval are determined by the platform. No placement or performance is guaranteed.

AI ASSISTANT · ILLUSTRATIVE CONCEPT

Spend

Engagement

ILLUSTRATIVE EXAMPLE

A clear monthly investment, with nothing hidden

All amounts are proposed monthly terms for the Phase Two agreement. Pass-through ad spend is always separate and always visible.

SERVICE	MONTHLY FEE	ADDITIONAL COST
SEO/GEO website content	\$400	—
Google Ad Grants	\$250	No client ad spend (grant media)
Social media marketing	\$450	—
Cold email outreach	\$400	\$100/mo Apollo software fee
Workshop & webinar production	\$400	Ad spend (pass-through)
ChatGPT Ads	\$150	Ad spend (pass-through)
Full package	\$1,750/mo	
Apollo / software fee	\$100/mo	
Known recurring total	\$1,850/mo	before variable ad spend

VARIABLE, PASS-THROUGH COSTS

- ◆ **Workshop/webinar ad spend** — agreed per event.
- ◆ **ChatGPT ad spend** — when placements are available and approved.

Google Ad Grants media carries no client ad spend while the grant account is eligible, approved, and active.

PROPOSED TERMS

Custom full package: \$1,750/mo
\$300/mo savings vs. \$2,050/mo a la carte
Apollo remains \$100/mo; ad spend is separate.

A disciplined start: build, launch, then optimize

Together we choose two or three lead priorities, then pair each with only the channels and measurement needed to learn quickly.

MONTH 1

Prioritize, verify, set up, build

- ◆ Confirm the two or three lead program priorities with NKCDC.
- ◆ Verify Google Ad Grants eligibility; begin platform approvals.
- ◆ Set up accounts, tracking, and reporting foundations.
- ◆ Build the first content, outreach lists, and event plan.

MONTH 2

Launch across the system

- ◆ Publish the first website pages and weekly social content.
- ◆ Start outreach conversations with businesses and partners.
- ◆ Deliver the first monthly webinar.
- ◆ Launch approved media, including grant-funded search ads.

MONTH 3

Optimize around what qualifies

- ◆ Review which channels earn qualified participation.
- ◆ Shift effort and budget toward what's working.
- ◆ Report on participation and downstream outcomes.
- ◆ Set priorities for the next quarter together.

No performance promises — a working system, honest reporting, and decisions based on what the first 90 days show.

NEXT STEP

Choose the Phase Two package and schedule a follow-up screenshare.

A working session — on screen, together — to walk through the system and confirm exactly how Phase Two starts.

[Schedule the follow-up screenshare](#)

\$1,750/month full package · \$1,850/month known recurring total
plus applicable ad spend

CONFIRMED ON THE SCREENSHARE

- ✓ **Priorities**
the two or three programs that lead
- ✓ **Owners**
who runs what, on both teams
- ✓ **Approvals**
grants, platforms, and content sign-off
- ✓ **Timelines**
launch dates for the first 90 days
- ✓ **Ad budgets**
pass-through spend, agreed up front
