Pampano, 15 impressions

Campaign rows total 5,049 impressions, 288 clicks, and \$153.72 in spend at a 5.70% CTR and \$0.53 average CPC. Six rows generated spend; Pampano recorded limited delivery. Conversion reporting is pending validation, so this report focuses on verified delivery and traffic performance.

Cost per click by priority market

Average cost per click by market (\$)

Lower is better. The line marks the \$0.53 account average.

CTR LEADER

10.05%

Carmel Mountain click-through rate

Carmel Mountain led CTR, while Torrey Del Mar produced the most clicks at an efficient \$0.32 CPC.

Priority-market view uses the four highest-spend rows. Coral Springs and Miami ran above the \$0.53 CPC average; Torrey Del Mar and Miramar combined lower CPCs with stronger traffic volume.

Highest-spend campaigns, side by side

MARKET	IMPR. / CLICKS	SPEND / CPC	CTR	DELIVERY
Coral Springs	985 / 24	\$36.73 / \$1.53	2.44%	Eligible
Torrey Del Mar	1,216 / 107	\$33.92 / \$0.32	8.80%	Eligible
Miramar	1,143 / 67	\$25.45 / \$0.38	5.86%	Eligible
Miami	638 / 20	\$23.52 / \$1.18	3.13%	Eligible
All 7 rows	5,049 / 288	\$153.72 / \$0.53	5.70%	6 spent / 1 limited

The four displayed markets are the highest-spend campaign rows. The all-seven total also includes Carmel Mountain, Solana Beach, and Pampano. Pampano recorded 15 impressions with limited delivery during the selected period.

What worked · What's next

WHAT WORKED

- Strong overall click rate. The account delivered a 5.70% CTR from 5,049 impressions.
- Torrey led click volume. It produced 107 clicks at a \$0.32 CPC and 8.80% CTR.
- Carmel Mountain led CTR. It reached 10.05% with 42 clicks from 418 impressions.

WHAT'S NEXT

- 1 Protect Torrey Del Mar and Miramar; both paired efficient CPC with meaningful traffic.
- 2 Review Coral Springs and Miami, where CPCs of \$1.53 and \$1.18 exceeded the \$0.53 average.
- 3 Investigate Pampano's limited delivery after 15 impressions and no spend during the week.
- 4 Validate conversion definitions, attribution window, platform latency, and downstream outcomes before conversion claims.

Traffic stayed efficient.
