EXECUTIVE SUMMARY

Kimberly James Bridal's new Philadelphia Search campaign is live and learning. Through the current July 27 observation, including a partial day of reporting, it has produced 33 impressions and one click on \$1.86 in spend. Its \$1.86 average CPC is 58% lower than the 2026 Apparel, Fashion, and Jewelry search benchmark of \$4.44. The new Meta qualified lead campaign is published and processing at a \$10 daily budget with a Higher Intent form, SMS verification, and four qualification questions.

CAMPAIGN OBJECTIVE

Build qualified bridal appointment volume through the new Google Search and Meta lead campaigns while validating every lead and appointment by source.

KPI CONTEXT

KPI Notes

Additional KPI context for spend, traffic, tracked results, and cost per result.

📋 KPI NOTE 1
Search volume is still an early sample and July 27 reporting is partial.

📋 KPI NOTE 2
Meta is processing, so lead performance will be benchmarked after delivery begins and enough data is available.

📋 KPI NOTE 3
Lead and appointment reporting remains pending validation against named business outcomes.
