

Revive Systems

AEO, GEO, SEO content, and paid-readiness boundaries

REPORT STATUS

Organic package handed off; publication and LSA route remain open

WEEKLY SIGNAL

Revive's Aug 3 to Aug 9 record is a clean handoff week: the five-piece organic package, sitemap plan, and paid-readiness path were delivered, with the next question being publication and the LSA route.

What we completed this week

WEEKLY
READ

- Delivered the Revive weekly report and August organic-growth plan on August 3.
- Kept the five-piece AEO, GEO, and SEO cluster visible as the current publication package.
- Preserved the organic acquisition and sitemap package as the next controlled release path.
- Held paid-media activation behind the exact account, pixel, LSA, and approval route rather than claiming current performance.

Primary goal

NEXT ACTION WINDOW

Approve and publish the organic package, record the first visibility baseline, and confirm the exact paid route before activation.

Next planning period

August 2026

EXECUTIVE ANALYSIS

The weekly evidence supports a completed organic handoff, not a new live-campaign result. The content and sitemap package are ready for an organized review and publication sequence.

The next useful measurement is a baseline of rankings, AI-search citations, and organic landing-page activity after publication. The LSA and paid route still need a clear owner.

Channel performance

Aug 3 to Aug 9 activity and results by channel.

Organic acquisition

Package ready · publication pending

The five-piece content cluster and sitemap package are the current delivery lane. Publication and measured visibility remain separate states.

Articles	Sitemap	Baseline	Publication
5	Ready	Next	Pending

Workstream / campaign	State	Spend / scope	Delivery	Signal
AEO / GEO / SEO cluster	Complete	—	5 pieces	Review
Organic acquisition	Ready	—	—	Publish and measure

Paid readiness

Approval-gated

No live Google or Meta performance metric is claimed. The exact paid route, pixel, LSA decision, and approval remain open.

Google Ads	Meta Ads	Pixel	LSA
Not mapped	Readiness	Pending	Open

Workstream / campaign	State	Spend / scope	Delivery	Signal
Paid-media route	Pending	—	No live KPI	Map first
Remarketing readiness	Assessment	—	—	Pixel check

Weekly summary: Organic package handed off; publication and LSA route remain open.

Weekly results and work completed

Weekly evidence is separated from downstream business outcomes.

Lead accounting: Platform-reported lead events are shown as whole integers where a current platform read was authorized. Platform activity remains separate from qualified inquiries, booked work, revenue, and other downstream outcomes. Unavailable fields remain pending validation.

Media results

No live paid-media platform metric was verified for Aug 3 to Aug 9.

Business results

Organic rankings, citations, inquiries, and revenue remain pending publication and baseline measurement.

Next reporting focus

Publish the approved package, record the initial organic baseline, and map the paid route before activation claims.

Work completed Aug 3 to Aug 9

WORK COMPLETED · WHY IT MATTERS · STATE

Report	Delivered the weekly client-safe handoff on Aug 3.	Gives the client a current view of the package without invented paid metrics.	Delivered
Content	Kept the five-piece organic cluster as the active publication package.	Creates a coherent answer-ready acquisition system.	Ready
Sitemap	Preserved the acquisition and sitemap package for release.	Connects content production to the public site path.	Ready
Paid readiness	Held activation behind exact account, pixel, LSA, and approval mapping.	Keeps readiness separate from live performance.	Open

August plan

Owned next steps, written for action.

Weekly highlights

- The organic package is complete and ready for review.
- Paid readiness remains clearly separated from live performance claims.

August focus

- Approve and publish the organic package.
- Confirm the LSA and paid-media route before activation.

Planned next steps

OWNER · TIMING · IMPACT

01	Publish Approve and release the organic cluster and sitemap package	Revive + Momentum Next read
02	Baseline Record rankings, citations, and organic landing-page signals	SEO After publish
03	Map Confirm the exact paid and LSA route	Paid media Before activation
