AUDIT FINDINGS

SEO, Website and Digital Presence Overview

Reviewed thegtclinic.com on 8/25.

Gaps

! Image alt text	10 of 21 images described
! H1 headline	none - the page never states its own subject
! Google Ads conversion tag	none - Google Ads cannot optimise against a booking or a call

Already working

✓ Page title	"Regenerative, Aesthetic & Functional Medicine Marlton, NJ - GT C"
✓ Meta description	present
✓ Mobile-ready viewport	present
✓ Schema markup (AI readability)	found
✓ Analytics / pixels	tracking found
✓ Social presence linked	linked
✓ 8 more checks	also passed and are not listed here for space.

most images have no description for search to read, no H1 headline, so the page never states its own subject to search and no Google Ads conversion tag, so ad spend cannot be optimised against real enquiries. Each one is visibility already earned and not collected. The plan that follows closes them in order of impact.

THE OPTIONS

Three ways to start

Momentum manages these channels as one coordinated program. Weekly communication keeps execution moving; a monthly call connects the activity to visibility, leads and the next decision.

Option 1
\$600/month

- On-Page & Technical SEO
- AEO, GEO & LLM Schema

Option 2
\$900/month

- On-Page & Technical SEO
- AEO, GEO & LLM Schema
- Google Ads

RECOMMENDED
Option 3
\$1,200/month

- On-Page & Technical SEO
- AEO, GEO & LLM Schema
- Google Ads
- Meta Ads

Any option Standard reporting is included at no charge. Ad spend, where used, is billed by the platform directly. Six-month agreement, so the work has time to compound.

OPTIONAL, ONE TIME	
Website Redesign	\$600 one time
AI Ads Dashboard	\$200 one time

SEO with AEO is \$500/month. Google Ads adds \$400 a month and Meta Ads adds \$400 a month. All three together are \$1,200 rather than \$1,300, so the full package takes \$100 off.
