What is ready to review

Five complete ebook manuscripts, ten articles, the existing strategy and offer documents, and the deck addendum. Original approval notes are included in each generated PDF.

Videos and creative assets

Current launch exports, existing motion studies, source clips, stills, exact logo assets, music and editable collateral are packaged separately. Superseded cuts and unapproved concepts are labeled as review extras. Technical file checks are not a claim of public release approval.

Review decisions

Read and approve first-person claims. Confirm offer scope and pricing with Mac. Resolve the attribution book dependency before publication. Review mascot and likeness content separately.

Typography

Archivo Black gives covers and chapter headings a stronger voice. Georgia is used for extended reading, with Calibri for tables and source notes. This is a print-only treatment, using Momentum blue and the existing artwork.
