

DESIGN + MOTION SYSTEM

Built to move. Easy to edit.

A reusable system for Momentum Digital.

INTERNAL SPECIMEN / 04 SEP 2026

One system. Clear ownership.

The content changes. The design rules stay consistent.

Brand

The verified client profile owns color, logo assets, typography and contact identity.

Composition

Reusable slide layouts own hierarchy, whitespace, rules and the light / dark rhythm.

Motion

Semantic roles determine entrance behavior automatically when the file is saved.

Hierarchy does the work.

Native text, shared baselines and open space.

54

Display / pt

A short, confident opening statement.

14

Body / pt

Readable supporting copy with room to breathe.

10.5

Caption / pt

Quiet labels and source furniture.

PRESENTATION BEHAVIOR

Motion with purpose.

Small moves guide attention. Native shapes stay editable.

01

Every role has a move.

Titles rise	A short fade and upward motion introduces the hierarchy.
Figures scale	A restrained scale change gives large typography emphasis.
Rules draw	Directional wipes reveal structure between content groups.
Footers stay	Footnotes and page numbers remain static throughout the sequence.

From content to presentation.

One save operation applies the selected motion style.

01

Load brand

Resolve the exact client profile and approved assets.

02

Add content

Choose layouts, keep claims sourced and add speaker notes.

03

Save deck

Write editable slides and apply role-aware native timing.

04

Verify

Open in PowerPoint, check effects and inspect every slide.

A file you can keep editing.

The presentation remains a PowerPoint document.

Element	Stored as	Presenter can edit
Headlines and copy	Native text shapes	Wording, weight and placement
Process and figures	Native shapes and text	Order, labels and values
This comparison	Native PowerPoint table	Rows, columns and cell copy
Motion	Native slide timing	Effects in the Animation Pane

REUSABLE BY DESIGN

Build once. Present clearly.

The next deck begins with this system: branded layouts, sourced content and native motion.

EDITABLE PPTX / SUBTLE MOTION / INTERNAL REVIEW
